Teams Direct Routing, Partner Hosted Architecture, Voice Solutions
Full UCaaS solution, replace on-prem PBX or inferior Hosted Voice/UC services

ABOUT US

NuWave believes you never get a second chance to make a great first impression, so when it comes to NuWave services, we pride ourselves on forging lasting relationships as a strategic partner based on the trust we earn. We measure our value through our customer’s eyes, and since 1998 we have connected businesses of all sizes with custom tailored solutions. We offer a full range of voice, data, and managed service options. Our solutions meet business needs by industry and segment over a highly scalable and secure network. With NuWave, you can rest assured your solution is met at the crossroads where market and price leadership, quality, and service intersect. NuWave is the leading voice provider in the United States.

RELIABILITY

Combining Microsoft Teams and NuWave’s carrier-grade voice network (8+ years without a customer facing outage) guarantees excellent communication for your organization with no limitations.

PARTNERSHIP

NuWave is the first US Carrier Endorsed by Microsoft to Provide Teams PSTN services. Microsoft Teams delivers a one-stop solution backed by the voice expertise and resources of NuWave.

COST SAVINGS

Eliminate the need for on-premise PBX hardware and avoid costly capital expenditures. With a quick deployment time you can benefit from the latest technology with predictable, fixed monthly costs.

Microsoft Teams is the fastest growing Microsoft Business application of all time and poised to become the center of the Office 365 Universe.

TEAMS OVERVIEW

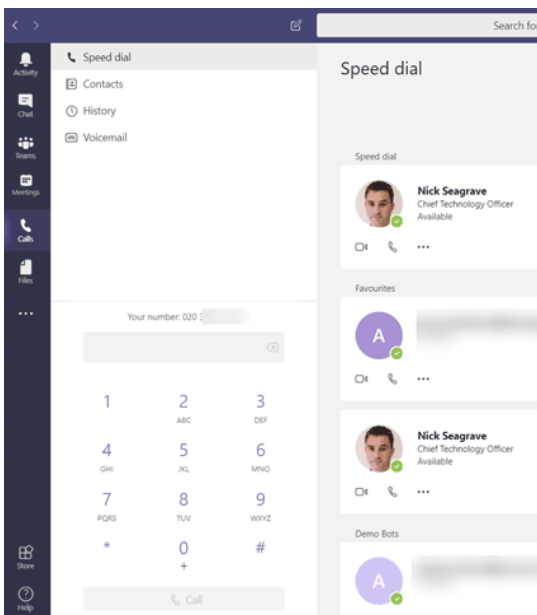

Communicate in the moment and keep everyone in the know. Chat in teams, privately one-on-one or in groups. Audio and video calls are just a click away and notifications and chat history ensure everyone is kept up to date. Access Microsoft Teams on any device with confidence knowing it's been built with enterprise-level security from Office 365.

A HUB FOR TEAMWORK

Give your team access to the information they need, right in Office 365. Chat, content and tools are all in the team workspace. File Storage, Channels by project or by team, SharePoint, OneNote and more!

CUSTOMIZED FOR EACH TEAM

Tailor your workspace to include the content and capabilities your team needs every day. Tabs and Connectors provide quick access to frequently used documents, websites and 3rd party apps.
